

ART AT HOME! **Paper Pendants!**

~ Sascha Mallon, Hospital Artist-In-Residence at Mount Sinai Hospital

1. Gather the Materials you need:

- Magazines
- Scissors
- Clear drying glue
- A chopstick
- Knitting needle or similar
- paint and brush (optional)

2. Cut paper strips about 1/4 of an inch wide along the side of a magazine. Glue two and two together. You can paint them, but that's optional.

3. Roll them around the stick as in the above picture

4. Take the rolled paper down with both fingers, holding the paper roll. Slowly open your fingers until the desired size. Now you pick it up again and glue the end onto your paper roll.

5. You can change the shape by pinching your paper rolls on one side or both sides.

6. Now experiment with gluing your shapes together. You can invent different patterns, but make sure they have adequate drying time before you move them.

Have fun!
