

## ART AT HOME: *Origami Frogs*

~ Sascha Mallon, Hospital Artist-In-Residence, Mount Sinai

### Materials needed:

One sheet of paper 6" x 6"

By the way... Origami means simply Folding Paper. Ori means folding and gami means paper in Japanese. This is a traditional frog folding pattern. There is more different styles of folding this little jumping frog. Once it is done you can have it jump by pressing down with your finger on the back of it. Here is how to do it:

- 1) Fold the square piece of paper in half. Fold like on the photograph:

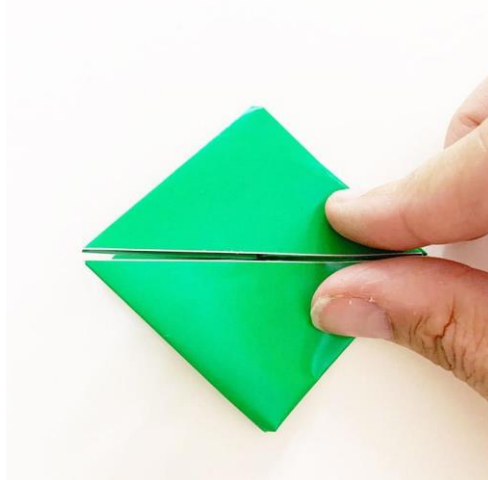

- 2) Press on both sides:

- 3) and the paper should fold in like this:

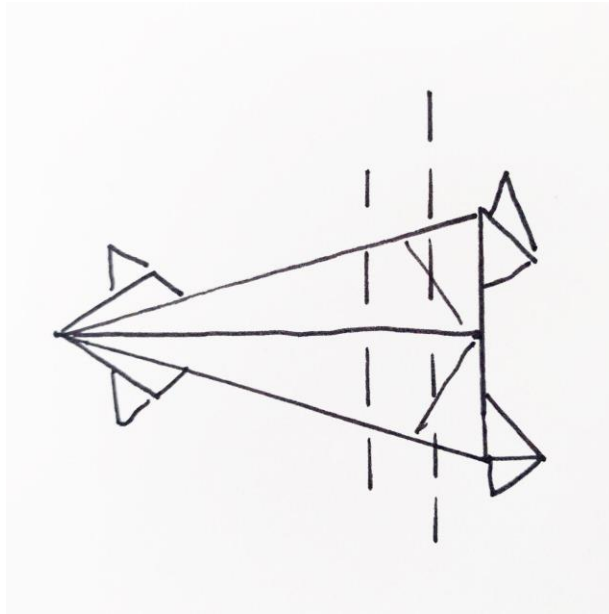

- 4) Repeat on the other side and you will end up with a square

- 5) Now you fold back the four little flaps to create the four legs. Turn around and fold the body as indicated in the drawing.

6) In the last step you fold two times like indicated in the drawing.

7) And there is your frog!
